# EXECUTIVE PRINCIPAL'S MESSAGE

Dear Students, Parents and Faculty

It is with great pleasure that I write to you in this special edition of our school magazine. As we commemorate the 25th anniversary of Learning Alliance and 10 years of IB at LAI.

I am filled with immense pride and gratitude. This milestone stands as a testament to the dedication, passion, and hard work of everyone who has been a part of our school community over the past quarter-century.

I never envisioned working in the field of education, but sometimes, fate has a way of intervening and guiding us down unexpected paths. At the age of 20, I accidentally stumbled into a teaching position in Nigeria, and from that very first day, I was captivated. There was something immensely fulfilling about shaping young minds and helping them discover their full potential.

Looking back on my extensive career now, the numbers are quite staggering. Over the past 40 years, I've had the privilege of working in various educational roles – internationally, locally, and finally, independently.

The secret to my success, I believe, lies in four key ingredients: perseverance, hard work, integrity, and perhaps most importantly, teamwork. I have been incredibly fortunate to have assembled a dedicated and passionate team around me – individuals who have joined me on this journey, grown with me, and helped me build successful systems and organizational structures.

I recognize that the challenges faced by the younger generation today are quite different from my own experiences. The world is changing at a rapid pace, and the solutions required are often outside the box. My very strong advice to the young people has always been:

**"If you love what you do, you'll never work a day in your life" – Mark Twain**

I have unwavering faith in the ingenuity and resilience of these young minds. Success will follow you, you'll never grow old, and your dreams will continue to evolve and expand. You must stay true to your roots, your values, and your cultural heritage. These foundations will ground you, even as you soar to new heights and carve out your own path. The future belongs to you.

Sincerely,

Anjum S. Ahmed

# Millions of Footprints

Hateem Tanver - IV a

I was walking in the woods when suddenly I saw something strange on the path ahead. There were millions of tiny footprints coming out of the bushes, crossing the path, and disappearing into the bushes on the other side. I had some free time so I decided to follow the footprints..

They went deeper and deeper into the woods. I was amazed by the beauty until I saw..Spider! I ran deeper and deeper thinking I was going north.I was really scared and then suddenly, an Australian black salamander jumped on me.I knew they were harmless, so I played with it. I forgot to follow the footprints and was lost.I ran the wrong way thinking I was going South. A monstrous but harmless tarantula jumped on me.I threw it like it was a tennis ball, then I stumbled across the familiar footprints and I was very scared. I saw a large workshop that said something in another language. I saw Santa's sled and then I saw his seven reindeers. I barged through the door and Santa said, it was a test and he gave me a present.

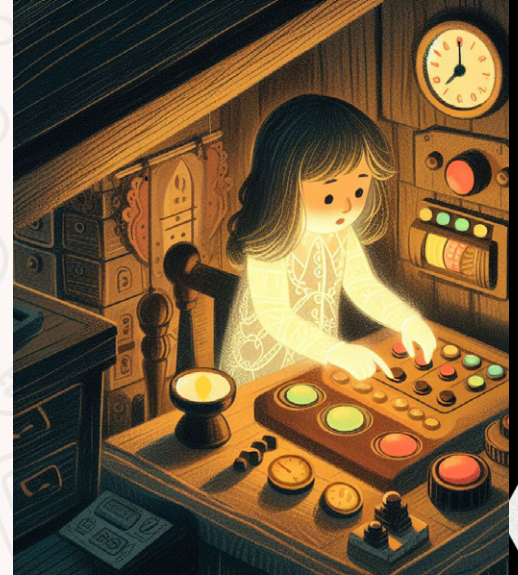

# The Strange Machine

Zenia Hayat - IV a

My uncle is an inventor. One day, I was searching through

the attic of my uncle's house.

I found a very strange machine with many buttons, knobs, dials, and levers. I had never seen a machine like it before. On one side, there was a button that said "on"...

And on the other side it was written "off". I was really very curious where the machine led to. I totally forgot that I had invited my friend Sasha. When Sasha came we started talking. I went back in the attic and showed Sasha the machine. She accidentally pressed the button. We both started screaming. When we got inside, Sasha and I were together. We both had a button on our chest.

Sasha said, "I am really sorry, I didn't know". I said "It's okay but if we are in let's try the button that's on our chest".

We both pressed it but couldn't feel a change. We were brought to a hotel by the machine. I checked the mirror. We both were invisible. Sasha said, Lets enjoy our time being invisible. We enjoyed it a lot. We pranked our friends and played a lot. At the end Sasha said, It has been a long time, let's find our way home. In the hotel I saw my uncle: Sasha was going up to him but realized she's invisible.

I said, " this is not the real world ".

We thought that we had a button on our chest. Let's press it and see what will happen. My button disappeared and Sasha got back home. I was scared and lost in hope of going back. Sasha went to my uncle and told her everything. Uncle was frustrated and got me back. We apologized for what happened. Uncle said, "you should not touch these kinds of things without adult supervision".

Sundus Mahmood Bajwa - IV a

One day, I found a very strange machine with many buttons, knobs, dials, and levers. I had never seen a machine like it before. On one side, there was a button that said on..

The machine had two big frog eyes, four human parts like legs and hands. I was really excited so I decided to turn it on. I pushed the red button carefully. Strange things happened. The screen said, "Hello!" How are you doing mate?

'Okay,' I said. It started flying around the attic. Suddenly diamonds and money flew out of its hands. "Wow!"

"Do you want to get on my back to take a trip?" asked the machine. "Yes, of course," I said. It took me over the clouds and into the sea. It was wonderful. Hours later the machine asked again, "Do you want to meet Biden, the president of America, or anyone else?"

I thought for a while and answered, "Yes!" Then the machine made a time hole and flew into it. Everything was quiet. The number of years flew past me. 1980, 1009, 3221... I opened my eyes. I thought it was the kingdom in which the king lived. Poor people were all over the roads, but a man with a big beard was talking to some people. It was King. I thought it couldn't be happening. Then, I walked up to him. He looked old, maybe he was too tired. Then I got his signature. Yipee! It was a great trip.

The machine brought me back to the real world. If you have been to the past and come back to 2024, you'll think this is such a terrible world. Garbage is all around you. Dirty air fills the sky. It makes the Earth warmer and warmer with the ice melting and the sea getting bigger and bigger. One day in the future we'll have no place to live. "Can you turn the world back?" I asked. The machine nodded its head. Then it used its magic. The Earth was like it was thousands of years ago, beautiful, no garbage, no dirty air, and no .. robot.

# Millions of footprints

Dua Tanveer - IV b

I was walking in the woods when suddenly I saw something strange on the path ahead. There were millions of tiny footprints coming out of the bushes, crossing the path, and disappearing into bushes on the other side. I had some free time so I decided to follow the footprints..

After the footprints kept disappearing, gruesome masks kept appearing.

I was breathing deeply and my brain was full of questions, I slowly approached the bush and before I went behind the bush, terror gripped my heart. I was concerned about what would happen to me. Would I cry or worse maybe I would die! As I was too brave and strong I counted to three, 1, 2,3, I jumped in the bush and couldn't believe what I saw. There were two of my cousins who were having a marshmallow party. I wasn't surprised because they were as naughty as two little munchkins. I was so mad but since it was their birthday, I couldn't get mad at them.

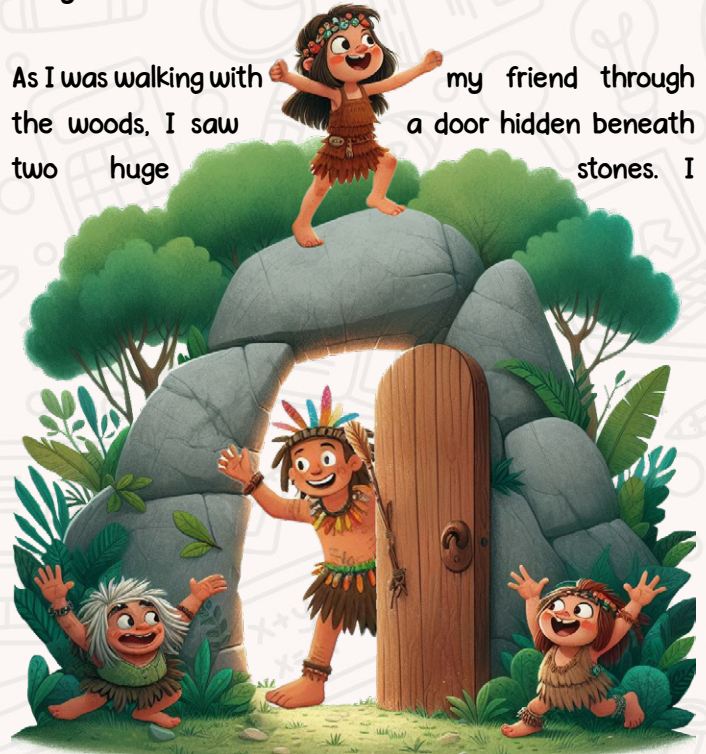

The next day, I screamed at them and they never did that ever again.

# The Door under the stones in the woods

Nuriyah Hamza- IV b

As I was walking with my friend through the woods, I saw a door hidden beneath two huge stones. I

remembered finding a strange key on the ground where this door was, but I didn't remember the door being there. I decided to try the key..

To open the door but the door didn't open, my friend suggested that why don't we try to open the door with a bobby pin. We tried that and it opened. When we went inside we saw people dancing like crazy monkeys, people were also welcoming us. We saw a person making braids. We asked her if she could make our braids. She said "of course." After she made our braids we wanted to explore the wonderful city. We saw llamas, koalas and even a butterfly garden. We loved the city so much we didn't want to leave so we tried their traditional food. My mouth was melting! Soon an old lady suggested that we should go to the strawberry field. We asked her what was so special about that place?

She said, "I can't tell you. It's a surprise!". When we went inside, the nice lady who worked there told us

that we can pick our basket and collect as many juicy strawberries as we wish. Later, we got so tired that we decided to leave. When we were about to leave everybody gave us pretty flowers.

## The best thing about my school

Salena Adnan - IV b

The best thing about my school is that it has the best activities, for example, P.E, gymnastics and other fun things. We have Health Week, Anti-Bullying Week and Sports Week. I love the school and the teachers are very nice. I am so glad my mom chose a good school.

Irum Sultana - IV b

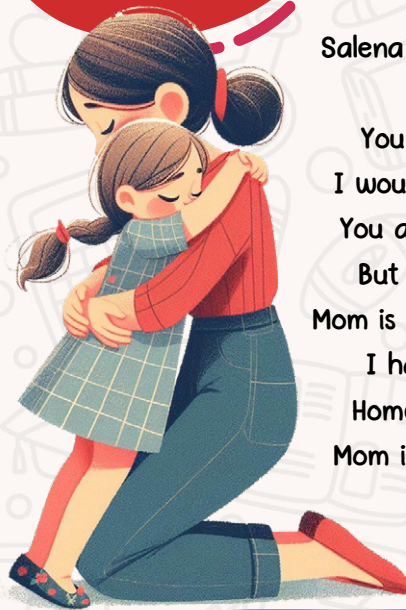

The best thing about my school is that I can meet my friends every day. I can do activities, like gymnastics, basketball, PE, cooking etc. My teachers are very kind and do not scold and some are funny and some are very, very kind. I love Learning Alliance.

## Mother's Day

Salena Adnan - IV b

You are my mother  
I would have no other  
You are my Dad's wife  
But you are my life  
Mom is such a special word  
I have never heard  
Home is where Mom is  
Mom is dear, when she is near

## No GrownUps...

Salena Adnan - IV b

Once upon a time there was a place where only children were allowed. In this special and magical place, the children made all the rules. Rules about bedtimes, what to eat for breakfast... everything! If you lived in such a place, what rules would you make?

If I lived in such a place, I would like to stay up late writing books. I can read, because adults teach us and write books. I would like to have some fried eggs, toast, blueberries and strawberries when I wake up. I would love to choose candy for breakfast, lunch and dinner, but I don't want to be hyper all day. I would like to get some sleep and I don't want an upset stomach. I don't even have an adult to tell me which medicine

to have. Anyways, I would like to have pizza with some fruit for lunch. For dinner I want to have biryani, but I wondered who will cook all this. At least, I could have a playdate with my friends all the time.

My uncle is an inventor. One day, I was searching through the attic of my uncle's house. I found a very strange machine with many buttons, knobs, dials, and levers. I had never seen a machine like it before. On one side, there was a button that said on ..

I was thinking if I should press it or not. I decided to come the next day. When I came back the machine changed positions. I asked my uncle about it. He yelled at me, to never touch that machine. I got scared but still went back to the attic and pressed the button. It said past or future. I pressed on to the future and I teleported in the middle of the street. I ran on the side and saw flying cars, people flying on jetpacks and having phones the size of an Ipad. I went to a coffee shop to get some coffee. I

I asked how much and the guy said it's free since it was coffee day. I was amazed. I asked what year it was and he said it was 2030.

I was so surprised about how the world developed over the years. I

saw the entire fancy house. I loved them. I saw the machine again and pressed on past. Then I was sitting on a green bench with pink flowers. I saw people fight, traffic fumes of gasses. I didn't like the past very much. I went to have some food. I ordered a burger and fries. I asked how much and the worker said Rs. 3222. I said it's so expensive. She said ma'am that's the price. I paid for my expensive meal and went outside. I checked the house. They were pretty nice. But there was garbage and wrappers in the future. I saw the machine and pressed the present and went back home.

From that day I decided I will make a business that will pick up all the trash so the city can be pretty and clean.

Musa Shahzad- IV b

My Uncle is an inventor. One day, I was searching through the attic of my Uncle's house. I found a very strange machine with many buttons, knobs, dials, and levers. I had never seen a machine like it before. On one side, there was a button that said on.

I couldn't resist myself. I had to see what the machine did so I pressed the "on" button.

The machine started making strange sounds. Lots of lights turned on so I had to go inside. There was a small door so I went inside. There were lots of buttons and on the top it said Time Machine! I couldn't believe I was in a time machine! I decided to travel to the future, the date 2624, 600 years ahead. The machine started shaking and I felt a strong wind on my face. I noticed I was flying into the future. When I left the machine the world around me completely changed. I thought I

was in another universe. I saw automatic cars on the road without a driver. Suddenly a weird green thing appeared in front of me. It looked like an alien. It was an ALIEN!! I was shocked! Aliens were living on Earth. One alien came to me and said, "who are you? What do you need?" I said, " I came from 2024." Then the alien told me. In 2540 there was World War 3 and all humans were killed and the world was destroyed, this is why it was taken over by aliens. I was devastated. I knew I had to tell my uncle about this. Maybe he could come up with a strategy to stop World War 3 and save the world.

## Annual Sports Day

Nael Chohan- IIIa

On 22nd February 2024, we had our Annual Sports Day.

We were overjoyed and super excited.

First, we went for the march past. The flag holders took the oath. loud and proudly. Our

parents cheered us throughout the march past. We assembled into our lines and took the oath. Our coach blew the whistle and at once we turned around and ran back. Afterwards, we had our display of archery, taekwondo and gymnastics. I participated in archery. We lined up and waited for our turns. Once my turn came, I shot the arrow and ran back scoring 6 points. Later on we had our races, we stood on the line and waited for our coaches to call our marks. We were super energetic. Once our coach had blown her whistle and called our marks we started the race. We ran as fast as we could and reached the first obstacle. We dashed towards the last obstacle, I placed the cone on my foot and jumped ahead of the other contestants, finishing it first. Then it was prize distribution time. My friend and I achieved first place and got our certificates. Our parents clicked our pictures. Not to mention, we played tug of war and emerged victorious. Additionally, we got a runner-up trophy for the football match.

It was the best sports day ever!

## A Mysterious Island

Ilana Shehryar - IIIA

One day, a tourist was sailing on a boat in the ocean, when a huge wave swept her away to a mysterious island.

When she woke up, she saw an unusual creature, a frog body with a chick's feet. She was starving, so she collected sticks and stones. She put them in a circular shape and caught a fish from the tree. She cooked it. After eating lunch she turned blue but she didn't notice.

When she took a step, she felt something bumpy under her shoes. She fell back because she saw living sand. It said, Ouch!

She quickly ran away. The sand couldn't chase her. There was a place that was as small as an ant. When the tourist went inside, there was a huge book library with aisles full of shelves of books. Whenever she wanted to know about anything in this forest, a book used to come and open to the page containing information about what she wanted to know.

One day she got help from a friendly boat captain who brought her from the mysterious island to the city. She took a taxi to her hotel.

# The Enchanted Castle

Enaya Asim - III a

At the top of the mountain there lived a king and a queen in a magical castle. They had a magical crown and brave soldiers with their magical swords. In the castle there were talking walls, talking red mat and huge dogs to guard the castle.

The birds and the trees in the garden were talking to each other. The magical crown protected the king and the queen many times. They became invisible. There was a magical garden. The grass was talking to the flowers. There was a friendly beast that guarded the castle also. There were so many rooms. In one room, there was a magical fountain that made the people happy and healthy when they drank from it. The magical books were in the shelves. They used to tell exciting stories.

One day a fierce dragon came and started fighting with the soldiers. He breathed out the fire. The king and the queen took out their magical swords and said 'We will kill you dragon.' The dragon was too huge that it broke the castle. However, it was magical, so it rebuilt itself. The king and his soldiers fought bravely and killed

the dragon. They cut him into pieces with their magical swords. Everyone was happy because the threat to their lives finally ended.

Muhammad Shahnawaz Aamir - III b

Once upon a time, there was a boy named Michael. He was very clever. One day he went to a shop and then he saw a book. In the book there was a warning to not read it. Then there was a note with a special spell. He read the book and then he got teleported to a beautiful place. He found some people trying to escape and he said 'What happened?' They said that they wanted to escape. Michael said 'What's your name?'. The first one said his name was Tom and the second one said his name was Ben. Then they went into a forest and they found a festooned castle. They went inside and they heard a loud voice and they were scared. They went up stairs and saw a monster. They ran and hid under the bed. They had an idea of tricking the monster. Suddenly, they heard a banging noise from the cupboard and Michael went to open the cupboard. Inside the cupboard they found a nice and beautiful princess and the monster was coming upstairs.

The princess was scared and then they hid under the bed. The monster ran downstairs. The princess told them to go downstairs. Then they went to trick the monster. Tom went to the room where the monster was and he

threw things at the monster and the monster got angry and Michael had a clear idea to trick the monster.

He pretended to go in the scary and dangerous chimney. Then the monster went to the chimney too and then Michael lit it with fire which killed the scary. They found a magic spell and read it to get back to their homes.

One night I was walking in the jungle. Suddenly I saw a portal. The portal was black. When I entered the portal there was a puzzle and the portal disappeared.

I solved the puzzle and was surprised. Then the portal opened and I went through it. I reached a mysterious land. The first thing I did was jump into the water. The water was red.

Suddenly, when I jumped into the water, the colour turned yellow. Then I saw an elephant. When I was about to touch the elephant, it disappeared. I saw a paper boat and threw it in the water. The water turned purple and a real boat appeared. I got into the boat and saw the key was hidden in the pirates cap. I threw the key on the boat. A door opened and the key disappeared. A huge scary lion was guarding the door. It became my friend. I went through the door and I saw a treasure chest filled with the shiny jewels and golden coins.

I woke up suddenly and realized it was just a dream. That was the best dream I ever had.

It was a cold winter day. Matilda was having fun making a snowman. Her mom had told her to wear warm things like mittens, jackets, caps, scarves, and boots. Matilda's mom was far away, and the rooftop was covered in snow.

Once Matilda was done making her snowman, she admired her hard work.

There was a lot of snow and she really enjoyed it.

There was a sledge right beside Matilda, so she decided to slide on it, and had so much fun that she wanted to go again. In the end, Matilda got tired and went back home.

## How i Spent my first day at school

Mian Muhammad Shahveer

Meraj - II b

It was my first day at school. I was very nervous at first but then with time I got a little comfortable. I made a friend whose name was Nyle.

میری پیاری دوست زینیا،

اسلام و علیکم، میں امید کرتی ہوں کہ آپ خیریت سے ہو گی۔ میں سوچ رہی تھی کہ ہم دونوں اسلام آباد سیر کرنے چلیں کیونکہ ہماری گرمی کی چھٹیاں آرہی ہیں تو ہم گھومنے پھرنے چلتے ہیں۔ اگر تمہاری امی کہتی ہیں کہ کسی بڑے کو بھی ساتھ ہونا چاہیے تو میں اپنی بہن کو بھی بلا لوں گی۔ تم مجھے جلد سے جلد بتا دینا۔ میں صرف تم کو بلا رہی ہوں کیونکہ تم میری سب سے اچھی اور سچی دوست ہو۔ ہم فیصل مسجد اور بہت سی جگہیں گھومیں گے۔

خدا حافظ

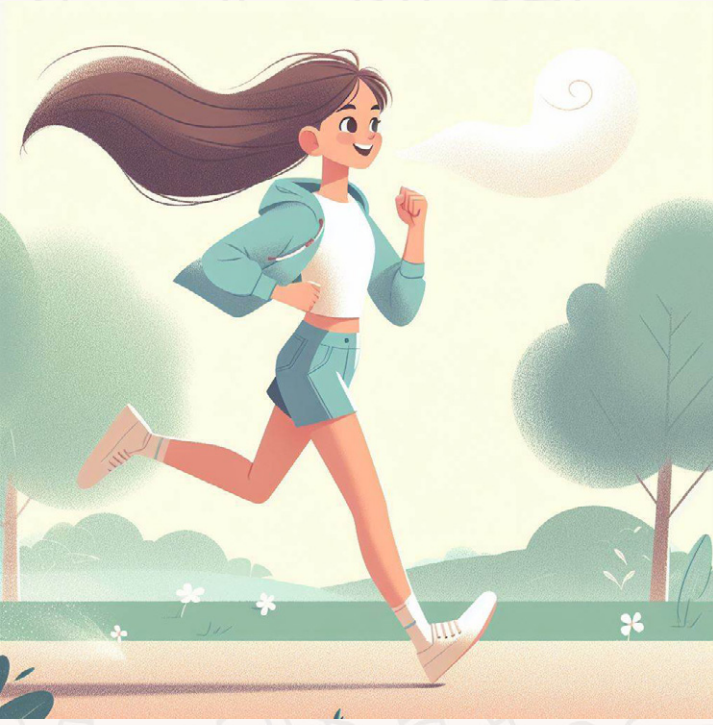

تمہاری دوست

## صبح کی سیر

سندس باجوہ - چہارم اے

صبح کی سیر صحت کے لیے بہت اچھی ہوتی ہے۔ صبح کے وقت موسم بہت خوشگوار ہوتا ہے۔ ہوا صاف اور تازہ ہوتی ہے۔ صاف اور تازہ ہوا میں سانس لینے سے ہم صحت مند رہتے ہیں۔ کبھی بیمار نہیں ہوتے ہیں۔

روزانہ صبح کی سیر کرنے والا انسان چوکس اور خوش ہوتا ہے۔ جو لوگ صبح کی سیر سے لطف اندوز نہیں ہوتے ایسے لوگ جلدی بیماریوں کا شکار ہو جاتے ہیں۔ اس لیے میں ہر روز سیر کے لیے جاتی ہوں۔ صبح کی سیر بہت ضروری ہوتی ہے۔

## صبح کا منظر

دعا راحم - چہارم اے

آج اسکول سے چھٹی تھی ہم نے رات کو ابو کے ساتھ پروگرام بنایا کہ صبح ہم بھی اپنے ابو جان کے ساتھ صبح کی سیر کرنے کے لیے پارک میں جائیں گے۔ صبح سویرے جب ابھی سورج کی ہلکی ہلکی روشنی تھی کہ ہم پارک میں روانہ ہو گئے۔ صبح کی ٹھنڈی ہوا بہت بھلی معلوم ہو رہی تھی۔ پارک پہنچے تو وہاں کا منظر بہت دل فریب تھا۔ درختوں کے پتے ہلکی ہلکی ٹھنڈی ہوا کے ساتھ لہرا رہے تھے۔ چڑیوں، بلبل اور بہت سے خوبصورت پرندوں کی آوازیں بھلی معلوم ہو رہی تھیں۔ پارک میں سبزہ اور خوبصورت پھول دیکھ کر دل خوش ہو گیا اُن پر پڑی شبنم موتیوں کی مانند لگ رہی تھی۔ صبح کا منظر دیکھ کر دل کو سکون ملا۔

میرا علم عقیدہ ہے تہذیب طریقہ ہے  
میرا حال شاداں ہے اور فرد اتاباں ہے  
میرا سبق محبت ہے اور مشق اخوت ہے  
استاد میرے رہبر ہر گام چراغاں ہے  
بے علم کوئی نہ رہے، یہ عہد ہمارا ہے  
دیب سے ہر دیب جلے، یہ عزم ہمارا ہے  
شان میں یکتا میرا پاکستان ہے  
لرننگ الائنس تو مرکز عرفاں ہے  
ہے پیروی حق بات کی میرا مقصد  
جذبہ جنوں بیدار ہے، ہمت جواں ہے  
محنت مروت صداقت روشن ضمیری  
یہی دولت یہی ثروت میری پہچاں ہے  
بے علم کوئی نہ رہے، یہ عہد ہمارا ہے  
دیب سے ہر دیب جلے، یہ عزم  
شان میں یکتا میرا پاکستان ہے  
لرننگ الائنس تو مرکز عرفاں ہے
